# KOALAKS Whitepaper
# The Official Token of KOALAK-KINGDOM

## Version 1.0 – August 2025

# Table of Contents

# Introduction

KOALAKS is the official token of the KOALAK-KINGDOM universe.

Born as a fun, community-driven memecoin, KOALAKS offers a narrative universe where each token holder embodies an evolving Koalak, from Baby Koalak to the legendary Koalak God.

# Concept

The project is based on three pillars:

- Visual and interactive memecoin: Every wallet holding KOALAKS is linked to a Koalak displayed on the official site.

- Progression system: Baby Koalak → Koalak Villager → Young Koalak Recruit → Koalak Soldier → Officer Koalak → Lieutenant Koalak → General Koalak → War Hero Koalak → Legendary Koalak → Koalak God.

- Gamification: visualize your Koalak, increase stats using KOALAKS, and participate in battles through a betting system.

# Token Utility

KOALAKS is at the core of KOALAK-KINGDOM.

Main utilities:
- In-game currency to increase Koalak stats.
- Gaming/betting system within KOALAK-KINGDOM.
- Project development and liquidity support.
- Visual identity of each token holder.

Note: No stacking, farming, or NFTs are planned at this stage.

# Transaction Tax

To secure the long-term growth of the project and deliver constant value to our community, every transaction involving the token carries a fixed 4% tax.
Unlike traditional transaction fees, this mechanism is designed to directly strengthen the project and its ecosystem.

The collected funds will be allocated strategically:

40% — Development & Innovation: accelerating product development, driving innovation, and ensuring the ecosystem evolves with cutting-edge solutions.

30% — Liquidity: reinforcing liquidity pools to provide stability, reduce volatility, and guarantee seamless trading for all holders.

30% — Team & Operations: empowering our dedicated team, fostering strategic partnerships, and covering key operational needs.

This smart redistribution model allows us to stimulate innovation, secure liquidity, and build a strong foundation for long-term success while maintaining complete transparency with our holders.

By design, this tax helps protect KOALAKS from speculative pump-and-dump activities, ensuring greater stability and long-term value for our community.

## Economy and Functioning

KOALAKS can be spent to increase stats and are sent to the creator wallet to support project development and provide liquidity.

Battles / bets: ~95% redistributed to the winner ~5% sent to the creator wallet (development / liquidity)

No token creation or burning after launch.

## Roadmap

Phase 1: Token creation, V1 website, Koalak display, whitepaper.
Phase 2: Implementation of Koalak stats, mobile wallet, community engagement, presale.
Phase 3: Gamification, Battle/betting system & first DEX listing.
Phase 4: Expansion to Uniswap, other platforms, partnerships, new features.

## Team

The founding team is currently anonymous, in line with memecoin culture. Future identity reveal may occur depending on project maturity.

## Community

Target audience: memecoin/crypto enthusiasts, investors, gamers, gamblers.
Project strength lies in its community and ability to create a federated universe.
Participation via Discord, Twitter, and official website.

## Security and Disclaimers

KOALAKS is an experimental, community-driven memecoin. No guarantee of investment return.
Token holders should be aware of cryptocurrency risks: volatility, liquidity, loss of capital.
Transparency: lock contracts for TEAM and CEX Listing are public on BscScan.
